PROJECTS

INFORMATIQ| WWW.INFORMATIQ.NO
Lead Developer - .NET 6, Microservices, .NET Core Web API, Docker, Azure DevOps, Kubernetes, Azure service bus, Cosmos DB

The Informatiq works for digitalization and visualization for the oil and gas industry. I am one of the key backend developers who is responsible to build features and businesses. I am working closely with a very experienced software architect who has 25 years of experience. In this project, we are using the very latest technologies to build our features and businesses.

PIQLCONNECT | PIQL.COM
Lead Developer - .NET 5, VUE 2, VUE 3, Microservices, .NET Core Web API, Docker, Azure DevOps, Cosmos DB

This is a very interesting project of the Arctic world archive. If anyone wants to keep his data for the long term (1000 years) then Using Piql Connect they can store their data in the most secure and stable place in the world which is Arctic World Archive. I am responsible for building features for Piql Connect and Piql admin where people will upload their data and it will process data into the arctic vault.

EMPLOYEE MOBILITY
Lead Developer - .NET Core, Angular, .NET Core Web API, Azure DevOps, MSSQL, .Net Core Worker Service, Odata SAP Integration

One of the top color companies wants to give their employees all of the daily data from SAP to mobile apps to make their life smoother. Also, they want to automate employees' activities through mobile apps. A big backend system needs to support all of their activities and data.

EXPIRAY CONTROL SYSTEM
Lead Developer -.NET Core MSSQL Razor Pages Asp.NET Identity Docker Azure Devops (CI & CD)

One of the worlds giant pharmaceuticals wants to control their expired products in a way, where they can control short expiry products by consuming those products within expiry period.

POSM DISTRIBUTION & TRACKING
Lead Developer - .NET Core Angular .NET Core Web API Azure Active Directory Integration MSSQL SSIS

The back end portal is for distributing and tracking POSM (Display Product Of Tobacco) product for field merchandiser. An app is serving end user inputs.

IDIM | INTEGRATED SOLUTION
Lead Developer - ASP.NET MVC Razor Views Jquery BijoyToUnicode automation Form database

One of the biggest government project which automates ten branches of Security Force HQ with ten projects in one place.

MOBILE SALES FORCE AUTOMATION | MSFA
Lead Developer - C# WCF Oracle SAP Integration

Mobile sales force automation software for a couple of leading pharmaceuticals in Bangladesh, Employees can take orders, can make daily call reports, expense tracking, Prescription Survey, Stock View, etc.
